Note: In 2010 the ETs focused on those contactees who were consistent in their public postings as they rolled out their presence to the world public. This required sacrifice and dedication on the part of the contactee. Harassment and expenses where incurred by those contactees who put skin in the game. However,they were rewarded. Generally, they were given better and more detailed sightings for there efforts.

Abena. Oxicar Orion pilot "Abena Astuz Yahl" and human contactee Phil Coseski.

June 6th 2010 Orange County New York. #2 Contact Second Contact dialogue between Oxicar Orion pilot **"Abena Astuz Yahl"** and contactee Phil Coseski. introductions followed by brief descriptions by Abena about her origins, home worlds, in both Orion and the Pleiades. My home world is "Caldera". If you continue to commune with me and learn more about us your genes will get stronger. Moved to unknown star "**Ledas**". Moved to "Sectoo" (*orbits the Star **Ledas***). It's four times bigger than Earth. "**Sectoo** is 90% water. Like the Bahamas near Florida. The majority of the cities are underwater and they sparkle like shining diamonds when seen from "Sectoo" orbit." (*Per Nudge Squidfish*) She is on a 3 moon system that orbits "Sectoo". "1 day is like two Earth days. Our UFOs can fly through solid rock. We can raise the vibration of atoms and particles pass through solid rock and lower the vibrations back again". **Abena** uses small pod like compartments to clean up their bodies. When inside your body is covered in a *gel-like* substance called "*Sittox*" this only lasts for five seconds. "It makes us 99% clean".

*Note: Abena moved to Venus then trained on Mars before being stationed on the East Coast of the USA. It appears that in our solar system **Abena** is now using "sound waves" inside the cleaning pod to take a bath. She use to live on a 3 moon system that orbits "Sectoo". She told Nudge Squidfish that two moons are dead but the 3rd is where she use to live.*

Rom Chronological Log:

Abena

8-21-2010 New ET. Abena the Orion. I have filmed her ship too. Phil Coeski(Contactee. Northeastern USA. Orange and Ulster Counties) of New York State in contact with her. Http://youtu.be/VmcIeTE6ktQ Phil says she is from Orion. My info is she is not. She works with and sometimes fills in for Rom, Bowllock and Buzz as needed.

10-5-2010 Abena says Rom on shore leave because of his kids. She is filling in. Telepathically showed me the “Rules Room” on her ship. This is where they have staff meetings on her ship concerning the work on earth. There are rules they must follow. Her ship was congested and cluttered with all kinds of stuff. Nothing like Rom’s ship. Phil Coeski stated on YouTube the she was just promoted from captain to major. Each of the

four ETs I am in contact with have very different personalities.

7-2-2013 WTF? Barda asked me to mate with Abena! I don't want to! But I said I would. Way too many women to deal with! Besides, what going to happen to them when I die? I don't want them to go through that! That dude in Spain's breeding program is not ready yet. Abena told me she is **203 Earth years old**. That would be about **23-27 years old in Earth time**. Man, I'm not sure about what I'm getting my ass into! I can't even handle the 4 ET women I'm with. Let alone manage them! How could I make Abena happy? First they stress test the shit out of me then when I pass they ask me to take on more mates. If I learned anything it's that my girls are very, very sneaky, but in a real positive way! All this makes me so sad. It hurts because I'm really a one woman man. That's all I ever wanted. Oh well!!! Rom told me he is **103 earth years old** and has three mating's before. **Sara, Sherry** and **Susan** that didn't work out. Wow?

July 18, 2010 Orion Contactee -Phil Coseski- UPDATE-Part-1-July-16-2010 BBS Radio Andrew Feder Interview With Orion Contactee Phil Coseski Part -1- *Recorded July 16th 2010*

Abena said on 8-22-2024: "I have given birth to eight children. 6 by Nudge Squidfish and 2 by my first marriage to '**My**' an ET male from Orion. It produced our younger son named '**Tie**' and an Older daughter named '**Pol**'. Over time we have brought Squid's vibrational state up to our level in order to breed with him. This process took some time to achieve and was very gradual.

Phil: "They have contacted some members of a Black Ops group called the Brigade. It's kind of a universal Black Ops of elite type of people consisting of military personnel & physicists. Occasionally they get in touch with them or the Brigade gets in touch with them for certain things."

Please note: Nudge Squidfish calls the Brigade "**Black Hats**". He had a lot of dust ups with them in the

early stages of the his contact history with the ETs.

Phil: "Abena recently said they were attacked. She told me one night when we were in contact they were being attacked by a fleet of 27 craft from the Rigel Orion. They were Orion from but they were *Rigel Reptilians* from the star Rigel and they were being attacked over here in Orange County. Actually, no! It was actually in Africa. I'm sorry. She told me it was in Africa! She had to fly out one night while I was filming. I thought it was her reconnaissance craft that I was filming. She later told me that the craft that I that thought was hers reconnaissance craft really senior Orion Battleship called the 'Xzena'. It was a battleship and they were flying off to Africa to confront these Rigel Reptilians who were harassing some one of their *Oxicarian* colonies bases in Africa. So there is a confrontation between groups of ETs. She warned me about these Orion Reptilians from Rigel. She told me they're cannibalistic towards humans. They're very dangerous. They're traitors and she told me about their physical Anatomy to some extent. She said they have two hearts. They have a large liver. She told me they destroyed that Fleet of 27 that was coming out to harass their people over there in Africa. Incidentally that she comes from a mixed marriage. I never knew this before. I thought she was fully Orion but she told me she's half **Pleiadian** She was originally born on the '**Era**' the same planet that the Billy Meyers *Pleiadians* come from. She comes from a mixed background. Father was half Orion and her mother was Pleiadian. So her father and mother lived on 'Era' in the Pleiadian Orion belt area. She goes back to her family and visits quite often."

August 8, 2010 Orion Contactee -Phil Coseski- UPDATE-Part-5-2010 July-16-2010 *July 16th 2010* ***BBS Radio Andrew Feder Interview With Orion Contactee Phil Coseski***

Phil: "Part-5 of my 2010 Update interview with all new information and photos from my Orion contacts, in part -5 is revealed the alliance between the *Oxicarian Orions* and a race of aliens residing on the *Jupiter* moon *Ganymede*"

"I can refer to another extraterrestrial who's already spoken about this and she happens to know Abena the other extraterrestrial her name is **Rama.** She is a girl from on one of the moons of Jupiter's. On **Ganymede** they're an ancient race that is also migrated from Orion. They originated in Orion but they came to our solar system and they first lived on the planet that exploded between Mars and Jupiter. This was due to a war. One of the names for that world was called **"Maldek"**. It became the asteroid belt but they used to live on "**Maldek**" before it blew up. They migrated to Ganymede and other planets in our solar system. They have are a super Advanced colony on Ganymede. Anyway, Rama contacted a man named Charles Silva back in 1974 down in Peru. Rama disseminated all all kinds of teachings about Ezekiel and how Ezekiel had been in contact with extraterrestrials."

Wikipedia says: "The disruption theory suggests that a planet which was positioned between Mars and Jupiter was destroyed, resulting in the asteroid belt between these planets. Scientists in the 20th century dubbed this hypothetical planet "Phaeton". "

Phil continues: "People are going to be given over to a "strong delusion" to believe a lie and that lie is that man is his own God and he can exalt himself to become his own God"

Abena says: "Phil didn't have the benefit of a master of wisdom to train him in the ways of the the secret doctrine. Left to his own misinterpretation, speculations and wrong translations of his contacts with me, Phil couched his opinions in terms of western Christianity."

Q. What is the quality of Piscean energy and how is it different from the quality of Aquarian energy?

A. Idealism, devotion and individuality. As we have used them, however, they have demonstrated, through our marked individuality, as division, separation, fanaticism, fundamentalism. It has the *ideals* of unity, brotherhood, justice, freedom – but if you look around the world there's little sign of that brotherhood, or justice. These positive qualities need a broader view of these ideals; not a simple, fanatical bigoted view which has been the norm throughout Pisces.

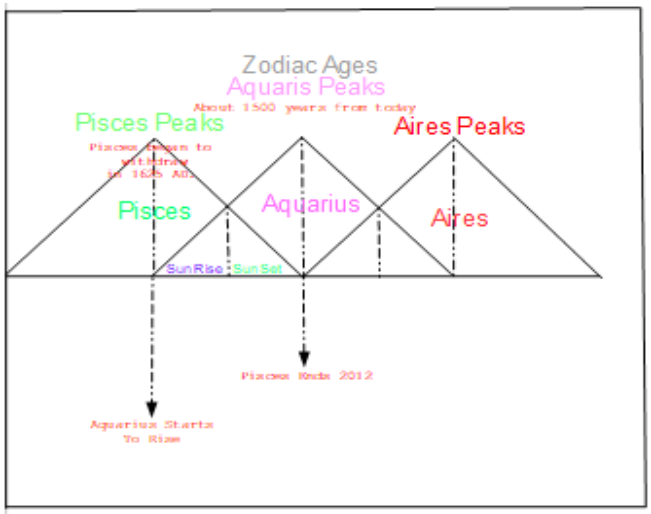
We are living at the end of the age of Pisces and that's a problem. The energies began to be withdrawn in 1625. Our solar system has come into the same relationship as with Pisces, but now with the constellation of Aquarius; we are living in the early years of the Aquarian dispensation.

Aquarius is totally different – its qualities are those of synthesis; they will fuse and blend humanity together in a way which now seems impossible. It's difficult to imagine because of the influence of Pisces. The energies of Aquarius began to come into this solar system and to this planet in 1675 and they are gathering momentum with every day that passes. The energies are more or less equal – neither one dominates. The energies of Pisces are still somewhat more prevalent – about 58 per cent to 42 per cent. So not equal but relatively so.

We are still living in a world with the old structures which we created – political economic, scientific, religious, cultural and so on. All structures are the result of our response to the energies of Pisces. The governments of the world are struggling to cope with the situation of today and the future, with the tools of an age which has passed. All our concepts of international politics, of economic structures, of how humanity should live together are dominated by the concepts of Pisces. Yet here we are living in the

early days of Aquarius. And we wonder why life is so difficult.

It is difficult because we are trying to do what belongs to tomorrow with the knowledge, the concepts, the ways of thinking, the old ways of the past. The aim of Aquarius is to create unity and synthesis – but how can you do that if you have only the technique of competition to bring that about. It cannot be done. You can only make unity with co-operation. It is the lack of co-operation, the emphasis on competition, which is the major obstacle to change for the better in every aspect of our lives. It is a contradiction in terms.



Phil continuation: "I had met **Rama.** After I learned about her. She reminded of it back in 1993. I had brief had several Brief Encounters with her!"

Rom Chronological Log:

12-11-2013 Shanna is letting her hair grow. She told me that once back in 1986 she took a solid earth body for a few days. She reminded me of a gig I did with Kevin & Rudy. It was in the "short north" district near OSU. The The bar was called "D. J. Prophet's". I remember it clearly because the The band was having amp problems and people started walking out. My friend Stick Hoffman was there and he had just met his future wife "Susan". I remember very clearly that three women walk past the stage out the door. I had totally forgotten until Shanna reminded me. She had made an impression on me in those few seconds when our eyes locked.

July 16th 2010 BBS Radio Andrew Feder Interview With Orion Contactee Phil Coseski

Phil: "I had met Rama I learned about her. Rama had met me once back in 1993. I had several Brief Encounters with her. Rama came let me know it was her and a girlfriend. Then Abena told me that Rama's girlfriend was Abena's cousin during those Brief Encounters. I saw them at a supermarket one day. Later on I saw them on the bus! Another time on the train line. They were like following me around. I knew it! Then Abena told me a Rama's girlfriend was Abena's cousin. Back then they were just checking me out and keeping a watch on me. Many years later Abena told me that she's been monitoring me for **30** years! She's revealed to me their underground base in Orange County extends for 24 miles! Humans are not allowed down into their base. Only certain select *Personnel* from the military and certain the 'Brigade'. A few scientists like physicists are allowed down. The ET oranges; they're sort of like Grays but they're orange! Abena told me there are several different types of Grays! One type is from The '*Zeta Reticulum'* constellation. The Zeta Reticulum greys are nice. The '*CTR*' colon race of greys, who rebelled against their creator race the '*AKRIJ* ' are from Orion and are very dangerous to humans.

Note: See THE CONTRARIES – THE CTR race of Orion clones who STEFANO BRECCIA AND BRUNO SAMMACICCIA talk about in the book *mass contact*! The Friendship case started in 1956 but was only brought to the public attention when the engineer *Stefano Breccia* (1945-2012) started to write about it in 2007. STEFANO BRECCIA after having spent a month interviewing *Bruno Sammaciccia,* the main human contact in this remarkable extraterrestrial contact case published the story! Most of the events took place in the Eastern Italian city Pescara. The *W56*, also called the *AKRIJ*, said there were also negative forces (ETs) who Bruno called the CTR. They were materialistic and in many ways the opposite of the W56. They said they were in conflict with the CTR and they were also here to keep them in check. They feared that humanity might follow their unscrupulous path too to the stars. The W56 seem to imply that their own harmony and high ethics also formed a kind of protection for humans against these CTR.

Phil Continues: "Abena told me they're outcasts from Orion belt and she told me there's a certain section of those Grays that are actually clones and they're slaves to the reptilians." "Certain reptilians from Draco Orion are trying to breed with humans. Also, certain Orion Grays. Their race is atrophying. They like to experiment and mix and splice genes to try and produce a new race."

Maitreya

He has been expected for generations by all of the world's major religions. Christians know him as the Christ, and expect his imminent return. Jews await him as the Messiah; Hindus look for the coming of Krishna; Buddhists expect him as Maitreya Buddha; and Muslims anticipate the appearance of the Imam Mahdi or Messiah. Although the names are different, many believe that they all refer to the same individual: the World Teacher, whose personal name is Maitreya.

Preferring to be known simply as the Teacher, Maitreya has **not** come as a religious leader, or to found a new religion, but as an educator in the broadest sense, a teacher and guide for all people irrespective of background or belief.

At this time of great political, economic and social crisis, Maitreya will inspire humanity to see itself as one family and create a civilization based on sharing, economic and social justice, and global cooperation.

He will launch a call to action to save the millions of people who starve to death every year in a world of plenty. Among Maitreya's recommendations will be a shift in social priorities so that adequate food, housing, health care and education become universal rights, automatically available to every living person worldwide. The restoring of our planet to health is also one of his major concerns. He comes, too, to advise humanity how to establish peace and trust among nations through the just and equitable redistribution of the world's resources and technology. Sharing is the key. Under Maitreya's inspiration, humanity itself will make the required changes and create a saner and more just world for all.

September 11 2010 Orion Contactee "101" Part One Statement by Phil. Recorded September 11th 2010

Pine Bush-July 28 1993: "I saw the large triangular shape craft. It slipped out of this field just lifted straight up. It was all sparkling white diamonds crystals. It looks like this triangular shaped craft was crystal. I mean the substance of this craft looked like clear see-through crystals. You could see all these like fireworks going off inside it. It was a dazzling array of multicolored like fireworks going off inside this craft as it lifted silently right out of this farm straight up in the air." "I move to Pine Bush in 2007."

"If others command us to submit to their wills without any kind of subjective experience don't do it!" "The ETs have not

taken me yet for any rides on their craft but that's coming. I'm being prepared for that right now."

"Abena had an unfortunate experience in deep space where she was attacked by a fleet of reptilian ships and they destroyed her previous craft. This is her newer craft that she got back in **June 2010**. She said the reptilians were able to penetrate the hull of her ship. They destroy it. Luckily she escaped in time in a special capsule and made it back to pine bush earth base safely. Luckily she wasn't really injured too severely."

"Alright this is Abena's latest ship, unfortunately she ran into a fleet of reptilian ships in deep space while en-route to her home world several weeks ago, and the reptilian craft managed to penetrate her shields and destroy her ship, she made a safe escape through an emergency pod. She suffered minimal plasma burns due to the reptilian weapons, which were completely healed upon return to base. She just got this new craft which she told me has two cores instead of one so it has double the power than her last ship had."

Abena told squid on 9-6-2010: "I had plasma burns on my right arm and backside from this engagement. I was able to get my crew and I back safely. The reptilians had set up a trap. All our ships are now escorted by combat crafts."

November 21, 2010 Alien- Audio Signals Transmit- Oxicarian legion captured by Reptilians-Nov-20-2010 *Recorded November 21 2010*

"This is a live audio signals transmit I was given today while in contact with the ET **Reena** from **Ganymede** coming from a small legion of the Oxicarian Orion's military who were somehow ambushed and captured by a large **Rigel Reptilian Slave Ship** sometime last night *(November 20th 2010)* just after I got some excellent video of an Oxicarian ship. What is heard in the audio is two Oxicarian male voices and one female voice. What is heard is the **Oxicarian** communicating to the **Li-en-ares** race on **Ganymede** informing them of their capture and asking for assistance to escape and for an evacuation. The capture was in retaliation for the Oxicarian attack on them back in **October 2010**. The deep ambient sound heard in the background is the natural sound of deep space as the signals transmit through it."

Note: In many of Nudge Squidfish's Youtube UFO trains can be heard. As with Phil's New Hampshire location; train tracks are close by Nudge Squidfish's home. Also, the Saturn Warriors is a companion to the many intergalactic militaries from outside our solar system. Saturn Warriors have final jurisdiction over security for our solar system and sometimes work closely, as needed, with many of the militaries from outside our solar system. The ruling Parliamentary body for our solar system is the "etheric planet" called "*Vulcan*". Because it is always on the opposite side of the sun it can only be measured as a gravity anomaly by earth scientist. Moboo's son *Jax Steven*, Susan's son *Ra* John and Undal's son *Octavia John* all serve in the Saturn Warriors force.

April 29, 2019 Quantum entanglement experiment *Shot April 29th 2019*

Abena say on 7-23-2024 that: Phil's notion of quantum entanglement is wrong. He lack a understanding of the Occult Laws of Paradox, Duality & Opposites. Also, the Doppler Effect changes Phil's interpretation and calls into question the validity of his results. His misunderstanding is that all photons are an separable, when in fact they are an inseparable whole; and that decoherence is the result of physical measurements. There is no child parent relationship involve in quantum entanglement!

Abena's newer class ship has dual tachionic Vril cores. Which means double the strength and power these craft can

output".

Abena said on 7-27-2024: "Phil's information on the tachionic Vril cores is incorrect. We have a variety of energy sources on our ships which address different conditions we encounter. Under water we use power systems which are the most efficient to the conditions encounter. In deep space it is a different situation. There are 3 basic configuration that space brothers employ. Atomic, Chemical and Etheric power. These power systems can employ water, friction, light, sound, metals, light, and many other source materials as need. These concept were to advanced for Phil to grasp so he had to *dumb it down* to give it proper expression".

May 8, 2013 Orion Contactee 2013 Update Part-1 *Recorded May 3rd 2013.*
May 8, 2013 Orion Contactee 2013 Update Part-2 *Recorded May 3rd 2013.* "Recent interview and update with BBS Radio host Andrew Feder with Orion contactee Phil Coseski from May-3-2013. topics discussed were latest contact with Abena of the Oxicarians, prophecies, solar activity, Middle east conflicts and outcomes. and much more. Phil's last contact with Abena was December 2012. One thing I'm concerned about because we haven't had any real contact outside of a few telepathic signals and a few dreams that I've had since out since the last time we had a full contact which was last year. I'm trying I'm in the engagement now trying to reach her telepathically and get back into contact with her but she's not responding and I'm not getting anything"

Abena said in 7-30-2024: "The space brothers don't use bio implants. A lot of other races do but we don't. It's true we changed Squid's and Phil's brainwaves to better communicate telepathically. This is a long process draw out over a few years. In 2013 the Black Ops only had crafts that were chemical propulsion based. The black ops had no anti-gravity systems that could leave Earth's orbit. Black

Ops groups which claim bases on the moon is not correct. The space brothers have preformed many rescue missions. They have return ET staff members from all around the earth. The space brothers and other ET races have God Machines which their leadership on Vulcan and elsewhere use to understand Individual, Nation or Planet Karma. Once the planetary parliament on Vulcan decide on a course of action; the Space Brothers and other ET races, seek to adjust human behavior, by various means to achieve the necessary result without the infringement upon humanity's free will. Phil is wrong in saying that the space brothers went to war with a group of southwestern Black Op forces. The space brother in conjunction with other Federation forces have destroy or disabled human tech when necessary but never without the consent of the solar planetary Parliament on Vulcan or other ET Federation races. Humanity simply does not have the tech to resist, let alone make war on Space brother forces. We allow the appearance of conflict so as to aid in human technological development. It has always been so since the birth of the Aryan race millions of years ago. Technological aid from the Space Brothers comes in two forms: 1.)Exchanges between Scientists. 2.)Voluntary ET Prisoners and UFO Crashes. After Master Maitreya reveals himself as the world teacher, many of these confused and misunderstood interpretations that are discussed between Phil Coseski & Andrew Feder, will be made clear. Phil is wrong when he claims that we are here for very rare minerals. We have access to many other resources that mankind is unaware of. The Space brothers are not mining earth resources. There is no need. There are many **Frenemy** ET races who agendas are different than ours.

*Wikipedia Note: "**Frenemy**" is an oxymoron and a portmanteau of "friend" and "enemy" that refers to "a person with whom one is friendly, despite a fundamental dislike or rivalry" or "a person who combines the characteristics of a friend and an enemy" Also, according to the divine law of duality and cycles, Good and Evil are two hands folded in prayer to god.*

Abena 7-30-2024 continues: "The Space Brothers know how to create life from scratch. We have no need in medical biological research. We grow some grays who we regard as our children for security. We treat and care for them the same as our own. We have many hybrid breeding programs all around the globe. We have no need for implants. That knowledge was gained during the birth of the Aryan race along the Ganges river millions of years ago. The first group of Aryans were half migrates from Atlantis and half migrates from Saturn. Once we know the brain frequency of our targeted human we can track their brainwaves anywhere on earth. We do not side with Israel or Hamas, or any other races of humans. All are embraced as one brotherhood. There are many past life karma's, which your earth is struggling to sort out this time around. The religious text of all earth belief systems have various degree of hidden occult truth in them. But your scribes and teachers have, for the most part, distorted, misinterpreted and committed fraud. They did this in order to control their grasp on power over their congregations. All interventions are carefully reviewed so as to not interfere with human free will. Maldek is the name given to a planet of this solar system that was located between Mars and Jupiter, but which no longer exists. The Asteroid Belt between Mars and Jupiter are the remains of Maldek. The name Maldek is used in theosophical writings, as well as in the RA Material, as in Edgar Cayce's readings. Our ancestors when to war and ended up destroying the planet Maldek. Some migrates fled to Venus, Saturn, Jupiter, Mars, Earth and it's moon. This was during the time when earth had 3 moons. Neither Andrew Feder or Phil Coseski understand the occult mechanics between free will and fate. Our selfish choices create bad outcomes. Service and sacrifices create good outcomes. Every Individual, Nation or Planet is subject to this divine law. There are no exceptions. Endless prophecy speculations are no substitute for truth. Reality will always superseded these speculations. Keep in mind that every religion on earth has it's own set of prophesies. When different prophesies consent it is a generally a good indication of the divine will. Glamour, illusions & speculations are good for the cash flow but do little to advance the spiritual development of

humanity."

Butch Hunt Of Pine Bush NY Interview by Phil Coseski.
Rephrased by Nudge Squidfish

November 21, 2011 Pine Bush NY - UFO witness Butch Hunt Interview Nov-20-2011.
Recorded November 20th 2011

Phil: "All right. I'm at my friend's Butch. He's a longtime resident of Pine Bush New York. Good afternoon Butch. Butch is a longtime barber. He has a barber shop in town. He's had a lot of his own UFO sightings around here in Pine Bush. That dates way back a few decades. So Butch what you've seen over the years?" **Butch:** "It started in the 1960s. I was reading a fate magazine. In 1968 there was five of us in the car about two miles down the road. It was about 10:30 at night. We watched a circular UFO just come floating over the Mills bridge! It was large as a bank! It had a rim around the edge so so you could see figures looking at us. It hovered over the bridge and we got out of the car. We were looking at them and they were looking at us. Then the car come up behind us. The UFO just tilted back. Then right up and it was going in a couple seconds. Phil took me out to the cemetery I had a sighting." **Phil:** "let me just say that when I took Butch out on July 12 2009. So I went out with Phil there. Also, I had a sighting back in the 60s at that too. It was a cigar shaped one and it was right on rock-cut road. It was about a half a mile away from the July 12 2009 location. It was going upstairs Searsville Road below the tree line. It was a big silver one! Shaped just like a cigar. Next I went with Phil out to the cemetery. There was two vacant houses there. Phil & I watched them out there. I went out there with Phil twice. Phil knew what we were looking at. I knew they weren't planes. A UFO rose up from behind the cemetery. **Phil:** "It came right out of the woods." **Butch:** "Yeah they came right out of the woods. They also come from east and west. Two different directions. Different speeds. You'd have to be as a mannequin to know they planes. But that's how stupid people. They don't even know what they're looking! They called are call UFO skeptics." **Phil:** "So that night I took you out. You said look how bright that is as I was filming. What did you exactly see? **Butch:** "I saw the lights come up from the woods right behind the cemetery. They came straight up and then they hovered. They would go east or west or north or south. Had all kind of lights on them. They had to be something besides planes. Forget about the fly and garbage cans. These where real UFOs." *(insert video clip from July 12 2009).* **Phil continues:** "You have recognized and seen that they use flashing lights on either side of these crafts. it's it's a form of mimicry. A lot of people think they're just planes. You saw it come out of the woods. It was hovering as you said. It stayed there as I was filming. It was just stationary letting me film. Did you see any of that plasma like swirling around it?" **Butch:** "Yeah". **Phil:** "Like a dark cloudy type plasma. The light was so bright. I remember you were remarking on how bright it was. It was pulsing. **Butch:** "Right". These UFOs they go and they stop. Phil you know there's no parking meters up there! You know they're not flames. They don't park up there. These UFOs can stop and go and come and go on any street they want. They're out there by the cemetery it's very active. There there's been a lot of sightings out there for years. **Phil:** "Right. For years. **Butch:** "And strange things go on out there. It's amazing there's only a certain few that really get into it. The rest of the people they don't know what they're looking at anyway. There's people in that one house, the other ones empty. Sooner or later we won't even be able to go out to the occupied house. **Phil:** "Well she gave me permission to be there. She has huge floodlights on that house. I don't like it because it's way too bright to film. You know that area behind the cemetery has been weird for decades. Ellen Crystal had remarked that she had thought that they had a base way behind those woods and they were coming right up from underground. I can vouch for that I took a walk out there back in 2010. That summer I took a walk into the wood where I saw a craft come out. I scoured that whole area. I combed the whole area for about a square mile in the woods. All there is back there is rocks hills ravines marshes. There's no sign of any kind of fenced off facility at all. I don't think it belongs to our government. What other notable sightings you've have you seen that you want to relate and share". **Butch:** That is the only one (*on July 12 2009*) I could see shapes. **Phil:** "But the ones that I took you out to see were triangular. Right? They're not the saucer type. They're definitely triangular right? **Butch:** "Yeah". **Phil:** "Or diamond-shaped? You've had other sightings too right? Butch: "Yes. White Lights. You know there not planes. **Phil:** "Didn't you say your brother had a sighting on his farm? That something killed an animal? **Butch:** "A UFO right over his house. It lit up the whole house. It was in the middle of the night. It lit up the whole house three times! **Phil:**

Wow! **Butch:** "And then the UFO disappeared. The third time it was with a very strong infrared light. Strong enough to light up the whole house for about fifty to a hundred yards all around it." **Phil:** "Wow." **Butch:** "I asked him did you go outside? He said are you crazy? I'm not going out there. The last time the intervals was like maybe a couple minutes and they walked through the whole house. They have a two-story house. They walked through the whole house and it was the same light on all sides of the house." **Phil: "Wow". Butch:** Lasted for a period of maybe a couple minutes. So my brother walk through the whole house. The UFO lit up the whole yard. **Phil:** "Amazing. Didn't you mention one of his farm animals died as a result?" **Butch: "**My brother had a neighbor and some some of his animals died the next day." **Phil:** "Wow" Because of the light? **Butch:** "They did know from what? The animals just mysteriously died." **Phil:** "Woe" **Butch:** "And we had a UFO a couple years ago. My son at the time was about eighteen at the time. This happened about 10:30 at night. The UFO came in at treetop level. It was huge. It came right over our house. Then it turned around. It was huge. You could see it was turning around and then it just headed up towards town. **Phil:** "Wow". **Butch:** "But his buddy wouldn't even talk about it. He was a UFO skeptic till that night. Then he became an instant believer. When something like that happens you're either go comatose or you become an instant believer!" **Phil: "Wow". Butch:** "The UFO was huge. It was a rectangular. Came floating right over a field right outside our house!" **Phil:** "Amazing" now this is right in Pine Bush?" **Butch:** "Yeah. We live about a mile outside of town. **Phil:** "Yep. So this area has had decades and decades of sightings. Ellen crystal way back in the 80s and 90s saw these things. Pictures were taken at night and everybody would tell her, Oh they're plane lights or car lights. **Butch:** "She had 2500 followers." **Phil:** "that's the big thing with these crafts. Especially the triangular craft. I know there's you've seen some saucer type craft around here too. But most of the crafts are triangular and they are using this form of mimicry. Flashing red and green lights. The UFOs know what they are doing because, if they were to fly around without that kind of FAA required flashing lights, then they would be intercepted by the Air National Guard. The reason they're here so much is because they have an underground base. Well I just that's covers it! It's been good talking to you. I thank you very much for the interview, sharing what you know and what you've seen with with me out in the field. Butch, thanks very much for your time

Note: Many now expect the return of their awaited Teacher, whether they call him the Christ, the Messiah, the fifth Buddha, Krishna, or the Imam Mahdi. Millions now know that the one who fulfills all these expectations, Maitreya, the World Teacher, is already living among us and is gradually emerging into full public recognition.

Preferring to be known simply as the Teacher, Maitreya has not come as a religious leader, or to found a new religion, but as an educator in the broadest sense, a teacher and guide for all people irrespective of background or belief. Together with the Masters of Wisdom, He is here to show us how to solve our most critical global problems.

At this time of great political, economic and social crisis, Maitreya will inspire humanity to see itself as one family and create a civilization based on sharing, economic and social justice, and global cooperation.

June 7, 2011 Orion Security Ship Scans area-June-6-2011 *Shot June 6th 2011* "One of their security craft flies routine patrols every so often just checking out the perimeters of their their area around here. It's one of the security craft for sure! They patrol their space. They patrol there. They guard their area very well in case hostiles adversaries want to come in and challenge them like the **Rigel** Orions. The **Rigel** Orions and the **Oxicarian** Orions are not friends! At one time I used to think they might be, but I got further information that they're definitely not

friends! Their rivals are '**reptilian',** and they're quite disturbing and nasty! They like to start **'skirmishes and challenges'**! They're a very, very ancient reptilian race. Abena told me they're very ancient & they have a very well developed technology."

Wikipedia Note: "Frenemy" is an oxymoron and a portmanteau of "friend" and "enemy" that refers to "a person with whom one is friendly, despite a fundamental dislike or rivalry" or "a person who combines the characteristics of a friend and an enemy" Note: "Also, according to the divine law of duality and cycles; Good and Evil are two hands folded in prayer to god."
